

The Secret Sky Garden L1

We are looking at 'The Secret Sky Garden' by Linda Sarah and Fiona Lumbers this week. Follow along with the questions on the PowerPoint to think about the front endpaper of the book and littering. Complete the littering sheet, thinking about what you see and how it makes you feel.

The Secret Sky Garden L3

Just like Funni in our story, can you go outside and take in the beauty of your surroundings. Focus on what you can hear, see and smell around you, what you can touch and how this place makes you feel. Make sketches of things that catch your eye or yourself in the place. For Year 3 children, make notes of your thoughts, feelings, or ideas.

The Secret Sky Garden L5

Follow along with the PowerPoint to think about the character Funni. We need to think about what Funni may be feeling now the garden has been created. Can you visualise her and draw what you think she looks like. Can you write some descriptive phrases and words to go alongside your drawing.

Exciting writing

Can you create a piece of persuasive writing to tell people why they shouldn't litter and what we can do to stop littering. Use the word bank to help with important spellings and the success criteria to keep you on task. For Year 3 children, remember to start a new paragraph when you introduce a new point.

The Secret Sky Garden L2

Can you create an informational poster to discuss the problem of littering in our community, including in and around school.

Think about:

- Why are you creating this poster?
- Who is this poster for?
- What do you need to tell people?
- What language will you use to make your messages clear and persuasive?

The Secret Sky Garden L4

Have a listen to the story until the second repetition of 'But something was missing. Definitely.' What have we learnt about Funni so far? What is her character like? Can you create your own character description of Funni based on what we have read and seen so far. You could include:

- Details about her appearance
- Background
- Her likes and dislikes

The Secret Sky Garden L6

In this session we are thinking about the feelings of different characters. Follow along with the PowerPoint to answer the questions. Have a discussion with someone in your household to answer the questions about Funni and Zoo.

The Roman Empire

We are going to be making our own Roman coins using clay this week. You can use the pictures for inspiration. Using the design sheet, can you sketch your own Roman coin, thinking about the tools and materials you might need to make it. Then, try to create your own coin. You can use the recipe here to make salt dough coins.
