Problem solving and reasoning questions
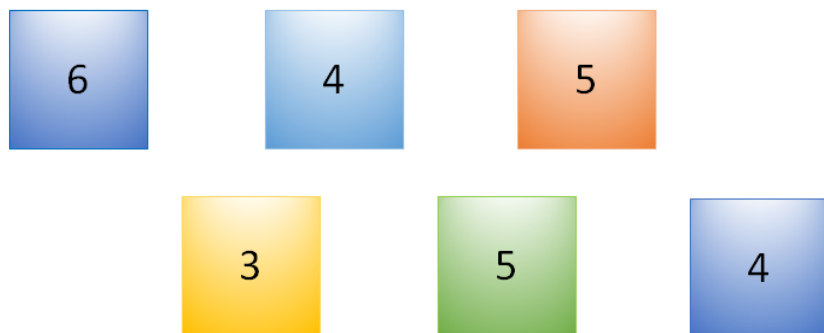

Write all the subtraction facts that begin 8 − ☐ =
You should be able to write nine different calculations!

Write three other number sentences I know if I am told that
5 + 6 = 11.

Choose two cards:

| 6 | 4 | 5 |

| 3 | 5 | 4 |

Choose an efficient strategy to add them.

Write the answer.

Tell me what strategy you used.

Choose two more and do it again…

These questions should be provided for children to do once the unit has been completed. They assess the children's mastery of the skills and concepts in this unit.
