

Jupiter and Oak Maths Plan Week Commencing 15th November 2021.

Monday	Tuesday	Wednesday	Thursday	Friday
LO: To be able to count money (pence) recap.	LO: To be able to count money (pounds) recap.	LO: To be able to select notes and coins to make an amount.	LO: To be able to find different combinations of coins that equal the same amount of money.	Please complete one hour on MathsWhizz.
In todays lesson we are recapping our understanding of counting money, with a focus on pence. Work your way through the PowerPoint, and also have money with you to work practically at the same time. Task one: Complete the matching activity sheet. You need to match the value to the correct note or coin. Task two: Complete the worksheet. There are two sheets to complete, the first focuses on counting the coins. The second focuses on problem solving questions. Task three: Have a go at playing shop. Ask someone at home to give you a price for an item. You must buy items for the exact price using pence.	In todays lesson we are recapping our understanding of counting money, with a focus on pounds. Work your way through the PowerPoint, and also have money with you to work practically at the same time. Task one: Complete the worksheet. Choose the level you are most comfortable with. Task two: Have a go at playing shop. Ask someone at home to give you a price for an item. You must buy items for the exact price using pounds and pence.	In todays lesson we are selecting the correct notes and coins to make an amount. Work your way through the PowerPoint, and also have money with you to work practically at the same time. Task one: Complete the worksheet. Choose the level you are most comfortable with. Task two: Differentiated mastery cards. To complete these you will need to use your reasoning and problem solving skills to solve various problems involving selecting money.	In todays lesson we are finding different combinations of coins to make the same amount. Work your way through the PowerPoint, and also have money with you to work practically at the same time. Task one: Complete the worksheet. Choose the level you are most comfortable with. Task two: Have a go at the investigation - Make the same amount.	
Please submit your work through Tapestry.
