

Add and Subtract 10s

1. Calculate the missing digit in the calculation below.

	4	6
+		0
	9	6

VF

4. Which numbers are hidden by the splats?

	4	8
+		0
		8

Find 3 possible answers.

PS

2. Complete the calculation.

	3	3
+	5	0

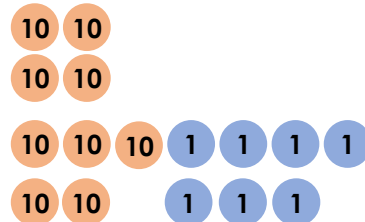

VF

5. Rowan is given a problem:

I have 57 marbles and I sell 40 of them.

	4	0
+	5	7
	9	7

This is his calculation.
Is he correct? Explain why.

R

3. Sally had 68 stickers. She gave away 30. Write the calculation she needs to do to work out her answer.

VF

6. Dave has 49p to spend. Use the digit cards to show what he could have spent at the shop.

3	1	9
---	---	---

	4	9
-		0

	4	9
-		0

Complete two possible calculations.

PS

Add and Subtract 10s

1. 5 ($46 + 50 = 96$)

2. 83

3.

	6	8
–	3	0
	3	8

4. Various answers, for example: $48 + 10 = 58$, $48 + 20 = 68$, $48 + 30 = 78$

5. Rowan is incorrect. If Rowan sells 40 marbles, the calculation should be $57 - 40 = 17$, rather than $57 + 40 = 97$.

6.

	4	9
–	1	0
	3	9

	4	9
–	3	0
	1	9
