

Year 2 Maths Week Commencing 21st March 2022

Careers week:

Activity 1	Activity 2	Activity 3	Activity 4
LO: To recognise and colour fractions of a shape. Watch the video to recap recognising fractions: https://youtu.be/UBiYzF-0txw Then, complete the three activities to consolidate your learning. 	LO: To work out fractions of a whole number. Spr2.10.4 - Find a half on Vimeo Complete the first WhiteRose sheet to consolidate your learning, Spr2.11.1 - Find a quarter on Vimeo Complete the second WhiteRose sheet to consolidate your learning.	<u>Money Management:</u> With an adult, can you plan an imaginary daily shop. Think about items you might need for breakfast, lunch and dinner (and snacks!) Using an online shopping website e.g. Tesco, can you find out how much these items would cost. Then, work out how much money you would need to pay for all of the items. If you only had a budget of £10 a day, which items would you definitely need and which would you have to get rid of?	Please complete your weekly tasks on Mathletics. Remember that we are working on length and measuring. It is always a good idea to complete activities from the start of the year as a recap! 

Please upload all work completed to Tapestry for feedback.
