

Design and Technology

This week we are starting to think about the inventions that we would like to present for our Dragon's Den. Can you use the worksheet to brainstorm three problems and three inventions that could solve each problem. Draw a rough sketch of what your invention could look like. The more inventions you have, the more choice you will have when we design our final product.

RE

We are starting our Islam topic in RE. Can you fill in the KWL grid for Islam - remember to leave the "what I have learnt" column for the end of the unit. Follow along with the Introduction to Islam PowerPoint and complete the Saudi Arabia worksheet.

Growth Mindset

Year 2 - Follow along with the 'How Much Effort' PowerPoint. Can you create your own effort meter to reflect the different learning tasks that you might complete in a day. Use the examples on the PowerPoint to help you.

Year 3 - Follow along with the 'Never Give Up' PowerPoint and work through the questions. Think about how you feel when you make a mistake and how you feel when you persevere and finally get something right. Can you design a successful learning game?

PE

Using the NHS 10 minute shake up link <https://www.nhs.uk/10-minute-shake-up/shake-ups> Choose two of the activities to complete.
