

Let's read a story!

Reception LO: to design a house.

Must: choose the material you want to use.

Should: draw your design.

Could: add labels.

Year 1 LO: to plan an experiment.

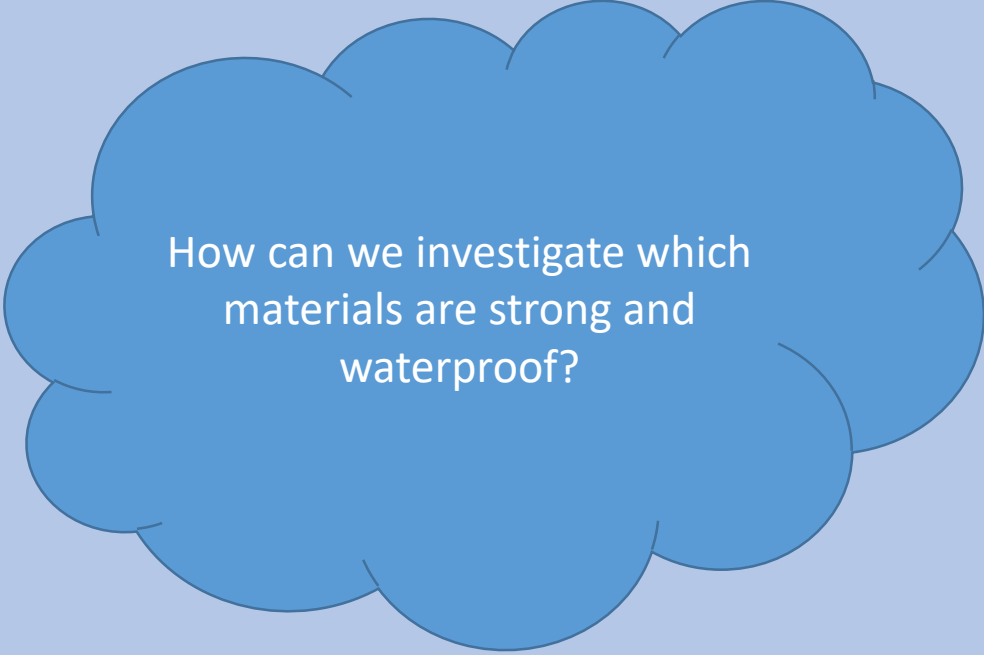

Must: discuss how we can test waterproofness.

Should: make a prediction about which materials are waterproof.

Could: draw and label a design.

Could we put them into
water?

Which materials could we
test?

How can we investigate which
materials are strong and
waterproof?

Could we test how strong
they are how?

I predict that

Last lesson we designed the three little pigs now lets plan our experiment!

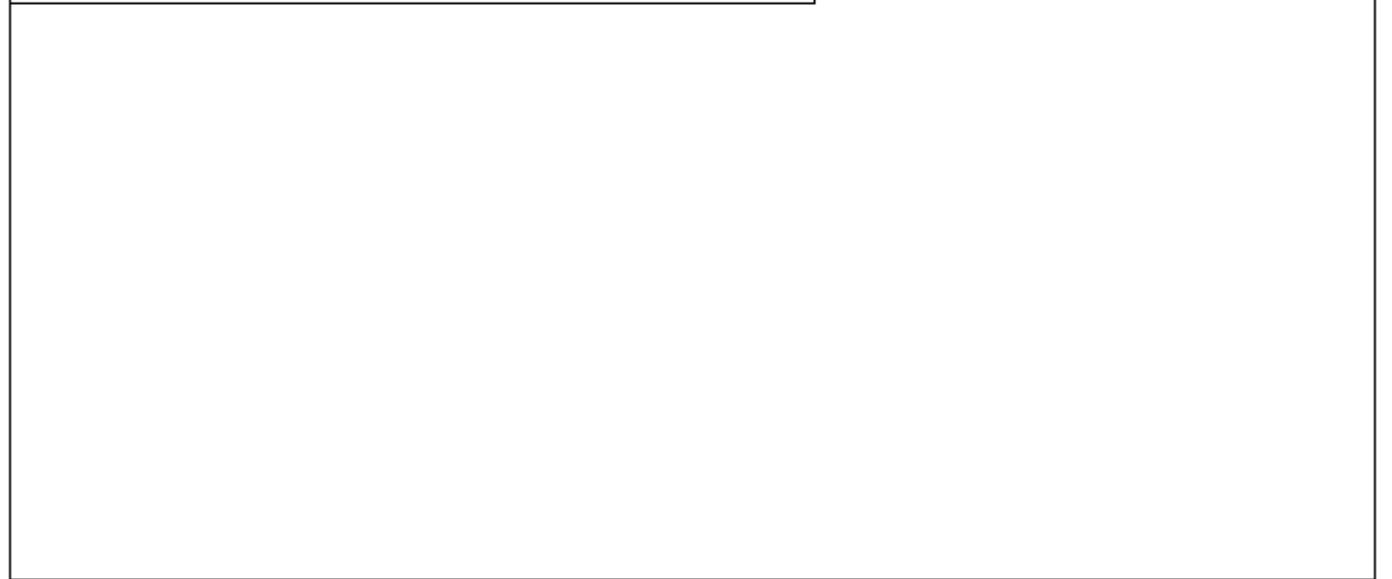

List the materials you are going to test.

Draw and label how you will test how waterproof the material is.

Draw and label how you will test how strong the material is.

Which materials will you use?

Draw how you will test how waterproof the material is:

Draw how you will test how strong the material is:
