

LO: To choose a research question about food. Starter: Think about the question- 'What if humans had no teeth?' Think of a plus, a minus and a something interesting answer. In this lesson you will be planning an investigation around a big question- How many vegetables should we eat? Follow the lesson presentation and think about the questions given. You will need to think of a research question related to this question. As you think about what you would like to find out, you might think about these ideas. • What types of food do we choose to eat? • What types of food are we designed to eat? • Do all animals eat the same foods? Once you have decided on a research question, you will need to come up with a method of finding out your answer. Create an action plan for your enquiry. Think carefully about your type of enquiry, and what equipment you may need. Record all of your ideas on a large sheet of paper. Finally, present your ideas to a family member and be prepared to answer any questions!		Topic LO: To use independent research to answer my inquisitor questions. (You can also choose to research some of these questions). Who are some heroes of WW2? What roles did animals play during the wars? Did people come to the UK from other countries after WW2? How did the wars change maps of Europe? What was the environmental impact of World War 2? What are some scientific breakthroughs that occurred during WW1 or WW2? Did people from other religions, such as Hinduism, Islam or Sikhism fight in WW1 or WW2? Did the Wars change the way people practised their religion? 
 RRSA World Water Day [Article 12]  Go through the PowerPoint and think about the questions asked. Select some activities to complete from the Primary Activities pages. Remember to upload work to Tapestry or bring work into school on your return!	PSHE Reflection Time!  We are close to another end of term. Spend some time thinking about the achievements that you have made this term. Has your learning progressed from the Autumn Term? What would you like to achieve in the coming Summer Term? Present your thoughts for others to comment on.	PE Complete a Joe Wicks' 30 minute workout.
