

Reception Maths Week Commencing 8th February 2021

Monday	Tuesday	Wednesday	Thursday	Friday
LO: To double numbers within 10.	LO: To double numbers within 10.	LO: To find half of numbers within 10.	LO: To estimate the total number of objects.	Know the number (Espresso)
Teaching input: Before watching our lesson video listen to the story: https://youtu.be/JML_7tsqImU Miss Kelly shows how to find your finger double.	Teaching input: Watch the lesson video of doubling. https://classroom.thenational.academy/lessons/understanding-the-concept-of-double-6gw3ad Having a paper, pencil and some cubes would be helpful.	Teaching input: First watch this video about halving: https://youtu.be/663FhDCwhkY Miss Kelly has a problem, she needs to share her biscuits, how can she make sure they both have the same amount?	Teaching input: Watch the video of Miss Kelly explaining how to estimate numbers of objects.	Teaching input: Explore the maths activities on the page and complete the games. https://central.espresso.co.uk/espresso/modules/ey_0to10/index.html?source=subject-Maths-F-Maths-Resource%20types
Activity: Have a go at doubling the number of spots the ladybird has, use counters, pebbles or play dough to create the spots and count how many you spots you have in total.	Activity: On your daily walk complete your doubling treasure hunt. Remember you can use your finger doubles to help you get the answer!	Activity: Using your toys to have a picnic, roll a dice and see if you can share out that many objects e.g. biscuits, grapes, toys, cubes. Can you share out all numbers equally?	Activity: Make a few piles of objects and write down the number of objects you think they are. Then count how many objects there are and see if you were close.	Activity: Suggestion: Spend some time exploring the different activities on the site. Remember to log into espresso before pressing the link.
