

Reception Maths Week Commencing 7th June 2021

Lesson 1	Lesson 2	Lesson 3	Consolidation Task
L.O: To identify a half.	L.O: To identify a half.	L.O: To explore capacity's.	
Input: Follow the todays lesson video. Understanding the concept of half (Part 1) (thenational.academy)	Input: Follow the todays lesson video. Understanding the concept of half (Part 1) (thenational.academy)	Input: Follow the todays lesson video. Using everyday language to compare and explore capacities (thenational.academy)	Input: Grown up to help support read the questions. Independently complete the activity mat on doubling.
Activity: Using play dough can you make a pizza and then split it into half?	Activity: Today we need to make 2 lunchboxes, one for your teacher and Mrs Whiting. Can you share the food so they both have an equal amount?	Activity: Explore capacity and try filling up water bottles. A grown up could put a line on the bottle and you have to fill it up to that line. Identify if it is full, empty or half full?	Activity: Please make a note of what your child struggled with on the mat and send to the class teacher on tapestry.
