

Ash/Mars Year 1 Learning Grid Week Commencing 11th October 2021

Lesson 1

L.O: To identify numbers on a numberline.

Take a look at the presentation, Can you find numbers on a number line? Can you find one more/one less?

Task:

Follow the instructions on the worksheet to identify the number.
Choose the worksheet your child feels most comfortable with.

Lesson 2

L.O: To use part whole models when adding two numbers together..

Take a look at the presentation, we are being introduced to a part- whole model.

Task:

Independently complete the worksheet your child feels most comfortable with.
You can use objects to help you complete the part-whole model.

Lesson 3

L.O: To identify additional fact families.

Take a look at the presentation, today use your knowledge of numbers to create addition fact families. E.g. $4+1=5$, $1+4=5$, $5=4+1$, $5=1+4$

Task:

Independently complete the worksheet your child feels most comfortable with.
Children to explore creating addition fact families.

Lesson 4

L.O: To explore number bonds to 10 using partitioning.

Take a look at the presentation, today we are levelling up our language. Split to partition

Watch:

<https://classroom.thenational.academy/lessons/recognising-number-bonds-to-nine-and-ten-c8v3ec>

Task: Explore finding numberbonds through part-whole models.

Mathletics

Please complete the assigned tasks on mathletics.

These will be set every **Monday** due **Sunday**.

Challenge

Hit the button: number bonds to 10.
