

Year 1 Math Grid Commencing 12th July 2021

Lesson 1

L.O: To compare the length and heights of objects

Watch this video:

[To compare lengths and heights of objects \(thenational.academy\)](https://www.thenational.academy)

Task: Cut out the objects and put them into order smallest to longest. Label the objects accordingly.

Lesson 2

L.O: To measure lengths using non-standard units.

Watch this video:

[To measure lengths using non-standard units \(Part 1\) \(thenational.academy\)](https://www.thenational.academy)

Task: Measure objects around the house using your hands as a unit.

Lesson 3

L.O: To use a ruler to measure objects.

Watch this video:

[Measuring Distance \(thenational.academy\)](https://www.thenational.academy)

Task: Using a ruler measure objects around the house. Write down the measurement making sure you add the unit.

Lesson 4

L.O: To measure length and record in a table.

Follow the presentation.

Task: Using a ruler measure the lines and write the measurement in the box.

Challenge: Draw lines that are the correct measurement.

Measuring game

Play this measuring game!

[Measuring in Centimetres \(topmarks.co.uk\)](https://www.topmarks.co.uk)

Mathletics

Complete 60 minutes of Mathletics.

Suggestion: Measurement and capacity
