

Ash/Mars Year 1 Learning Grid Week Commencing 4th October 2021

Lesson 1

L.O: To order two groups of objects by size.

Take a look at the presentation, how can we compare groups by size?

We are going to level up our mathematical language and use ~~bigger~~ - greatest!

Task:

Create two groups of objects (lego, crayons, beads) and draw how many you have in each bag.

Now label which bag is the **smallest** and which bag is the **greatest**.

Lesson 2

L.O: To order three groups by size.

Take a look at the presentation, how can we compare three groups by size?

Remember your mathematical language: smallest and greatest

Task:

Independently complete the worksheet your child feels most comfortable with.

Lesson 3

L.O: To order numbers by value.

Take a look at the presentation, how can we compare and order numbers by their value.

Task:

Independently complete the worksheet your child feels most comfortable with.

Compare the numbers and complete the sentences.

Lesson 4

L.O: To be able to use ordinal numbers.

Take a look at the presentation, today we are looking at ordinal numbers (first, second, third).

Task:

Have a race at home! Could be with your grown ups or your toys. Who came 1st? 2nd? And last? If you are feeling confident have a go at the **challenge** worksheet.

Mathletics

Please complete the assigned tasks on mathletics.

These will be set every **Monday** due **Sunday**.

Challenge

Sort the cards from smallest to highest.
