

Year 2 Maths Week Commencing 11th January 2021

Monday	Tuesday	Wednesday	Thursday	Friday
LO: To divide numbers by 2, 5 and 10 practically.	LO: To divide numbers by 2, 5 and 10 using jottings.	LO: To check my understanding of division by using the inverse calculation.	LO: To consolidate my understanding of dividing by 2, 5 and 10.	
Teaching input: Watch lesson 1 PowerPoint and listen to audio files included.	Teaching input: Watch lesson 2 YR2 PowerPoint. Try to follow along with the questions on a piece of paper.	Teaching input: Watch lesson 3 PowerPoint. Complete a multiplication wheel for 2, 5 and 10 times tables to help with your activity.	Teaching input: Watch lesson 4 PowerPoint. Think about what we have learnt so far that is important to remember.	Please complete the set tasks on Mathletics.
Activity/Resources: Children working practically to divide by 2, 5 and 10. Children to choose the question sheet which suits them. Where stated, I would like you to show me a specific method to work out division.	Activity/Resources: Using the question sheet from last lesson, children are documenting their work in their books. Complete the question sheet using jottings or drawings to show your working out.	Activity/Resources: Children to choose the question sheet which suits them for each division (3 sheets in total). Work out the answers and check your answers using the inverse. Show jottings or working out for both.	Activity/Resources: Children to answer the investigation question sheet and work out the answers to the division questions using written methods e.g. jottings.
