Extra

Look at what happens when we need to add endings to very short words:

If the letter **before** the last letter is a **vowel** (a e i o u) – **double the last letter**.

ho**p** + ing = ho**pp**ing

If the letter **before** the last letter is **any other letter** – <u>don't</u> **double the last letter**.

ju**m**p + ing = jumping

Do these word sums.

1 drop	+ ing	= _____	**2** cry	+ ing	= _____
3 wet	+ ing	= _____	**4** skip	+ ing	= _____
5 run	+ ing	= _____	**6** beg	+ ing	= _____
7 smash	+ ing	= _____	**8** call	+ ing	= _____
9 copy	+ ing	= _____	**10** kick	+ ing	= _____

Extension

Remember, if we want to add **ing** to a 'magic' e word, first we need to take off the **e**, like this:

bake + **ing** = baking

To add **ed** or **er** to a 'magic' e word, we also need to take off the **e**, like this:

bake + **ed** = baked   bake + **er** = baker

Do these word sums.

1 race	+ ing	= _____	**2** shade	+ ed	= _____
3 glide	+ er	= _____	**4** pace	+ er	= _____
5 glue	+ ed	= _____	**6** rope	+ ing	= _____
7 vote	+ ed	= _____	**8** tune	+ ing	= _____
9 arrive	+ ing	= _____	**10** wipe	+ er	= _____
