| <b>LO:</b> To divide numbers by 3, 4 and 8 practically.                                                                                                                                                                       | <b>LO:</b> To divide numbers by 3, 4 and 8 using jottings.                                                                                                                                                    | <b>LO:</b> To check my understanding of division by using the inverse calculation.                                                                                                                                    | <b>LO:</b> To consolidate my understanding of dividing by 3, 4 and 8.                                                                                                     |                                              |
| <b>Teaching input:</b><br>Watch lesson 1 PowerPoint and listen to audio files included.                                                                                                                                       | <b>Teaching input:</b><br>Watch lesson 2 YR2 PowerPoint. Pause the video and follow along with the questions on a piece of paper.                                                                             | <b>Teaching input:</b><br>Watch lesson 3 PowerPoint. Complete a multiplication wheel for 3, 4 and 8 times tables to help with your activity.                                                                          | <b>Teaching input:</b><br>Watch lesson 4 PowerPoint. Think about what we have learnt so far that is important to remember.                                                | Please complete 1 hour of work on Mathswizz. |
| <b>Activity/Resources:</b><br>Children working practically to divide by 3, 4 and 8. Children to choose the question sheet which suits them. Where stated, I would like you to show me a specific method to work out division. | <b>Activity/Resources:</b><br>Using the question sheet from last lesson, children are documenting their work in their books. Complete the question sheet using jottings or drawings to show your working out. | <b>Activity/Resources:</b><br>Children to choose the question sheet which suits them for each division (3 sheets in total). Work out and check your answers using the inverse. Show jottings or working out for both. | <b>Activity/Resources:</b><br>Children to answer the consolidation question sheet and work out the answers to the division questions using written methods e.g. jottings. |                                              |
