

Year 6 Maths Week Commencing 1st November 2021

Monday 01.11.2021	Tuesday 02.11.2021	Wednesday 03.11.2021	Thursday 04.11.2021	Friday 05.11.2021
HALF TERM	LO: To practise short division of whole numbers and decimals	LO: To use formal written methods for long division	LO: To practise written method for short and long division	Maths Whizz 60 minutes 
	Look at the examples on your worksheet to see how to set out your calculations. We tend to call this 'bus stop' method. Does having a decimal number make the calculation more difficult? No - as long as you remember the placement of the decimal point!	Look at the examples on your worksheet to see how to set out your calculations. Make sure that you write the steps to achieve your start number down the side of the calculation. <i>This is similar to counting up method used for subtraction before the half term.</i>	This is a consolidation lesson. Look over your work from the last two days to remind yourself of written methods for both short and long division.	
	<u>Activity/Resources:</u> Select your appropriate level from the 2 way differentiated worksheet Check answers with a calculator	<u>Activity/Resources:</u> Select your appropriate level from the 3 way differentiated worksheet Check answers with a calculator	<u>Activity/Resources:</u> Select your appropriate level from the 3 way differentiated worksheet Check answers with a calculator	

Please use Tapestry to upload completed work. If you do not use Tapestry, please email to school office.
